April 16, 2026

LONDON and NEW YORK, April 16, 2026 (GLOBE NEWSWIRE) -- MeiraGTx Holdings plc (Nasdaq: MGTX), a vertically integrated, clinical-stage genetic medicines company, today announced the pricing of an underwritten offering of 11,111,111 of its ordinary shares at an offering price of \$9.00 per share. Gross proceeds to MeiraGTx from the offering are expected to be approximately \$100 million, before deducting underwriting discounts and commissions and offering expenses. All of the ordinary shares in the offering are being sold by MeiraGTx.

The Company believes that the net proceeds from this offering, together with its existing cash and cash equivalents, will be sufficient to enable it to fund its operating expenses and capital expenditure requirements, including potential commercial launches of bota-vec for the treatment of X-linked retinitis pigmentosa and AAV-hAQP1 for the treatment of radiation-induced xerostomia, in each case if approved, into the second half of 2028.

BofA Securities and Goldman Sachs & Co. LLC are acting as joint book-running managers and Raymond James is acting as co-manager for the offering. The offering is expected to close on or about April 17, 2026, subject to customary closing conditions.

The ordinary shares are being offered by MeiraGTx pursuant to an effective shelf registration statement on Form S-3 that was previously filed with the Securities and Exchange Commission (SEC) on December 21, 2023 and declared effective by the SEC on December 29, 2023. This offering is being made only by means of a written prospectus and prospectus supplement that form a part of the registration statement.
